

YOUR HEALTH IS OUR #1 PRIORITY

If you're worried about the coronavirus (COVID-19), please be reassured that we are following the health and safety guidance as prescribed by the Centers for Disease Control and Prevention (CDC), as well as the local public health department.

Here are the actions we are taking

Keeping People Safe

We train our employees on health and safety standards to adhere to all local, state and federal guidelines.

We screen the health of our suppliers, employees and products.

All of our employees are given and wear safety rated face masks and gloves, and frequently wash their hands to protect their health and yours.

Securing a Healthy Environment

We are encouraging people to follow social distancing guidelines and to frequently wash and sanitize their hands.

We are frequently disinfecting our business and all high-touch surfaces with disinfectants supplied by Regional Distributors, Inc. that are EPA-approved to be effective against COVID-19.

We have procedures in place should an employee become sick or have a sick family member.

If you have any questions or concerns, please ask for the manager.
